GLACIAL TERRAIN

04

TROPICAL JUNGLE

16

MOUNTAIN DESERT

28

SEA SHORE

40

Glacial Terrain.
Tropical Jungle.
Mountain Desert.
Sea Shore.

In this third edition of focused palettes, we are contemplating four unique landscapes and the color stories they inspire. We've selected more than 40 different styles from our library, ready to transform your lobbies, corridors and guest rooms.

Explore the possibilities.

A PRODUCT: Cloud Cover™
SIZE: 50cm x 50cm
COLOR: Dark Sky
INSTALLATION: Non Directional

A

GLACIAL TERRAIN

08
07

01

Abstract, exquisite forms.
Water everywhere.
Fluid or frozen and
bright, reflecting the sea
and the sky.

GLACIAL TERRAIN PRODUCTS

01 PRODUCT: Drawn Lines™
SIZE: 25cm x 1m
COLOR: Silver

02 PRODUCT: RMS510
SIZE: 25cm x 1m

TROPICAL JUNGLE

→ LOBBY

18

16

14

Steamy and lush with
lingering floral scents.
We are lost among
the flora and fauna,
following the flickers
of sunlight through
the shade of the
jungle canopy.

TROPICAL JUNGLE PRODUCTS

- 13 PRODUCT: CE173

47 FLOR PRODUCT: Tuxedo Pocket
SIZE: 50cm x 50m
COLOR: Lichen

Light and warm mixed with
sand and seafoam.
Hues are blended, then
one dark line, like a horizon.

WHY MODULAR FLOORING?

Flexibility

Keep Your Floor Beautiful. Modular flooring allows you to play with pattern and design without having to special order sizes. And the same flexibility that lets you create your floor helps you keep it looking good because in-house staff can easily replace individual tiles that become damaged or heavily soiled—no down time or outside contractors required.

Intersept®

Mold Protection. Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria — guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

Sustainable Choice

Environmental Responsibility. Interface was the industry's first to earn an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). In addition, all of our products with GlasBac® and GlasBacRE backings meet NSF/ANSI 140 Sustainable Assessment for Carpet.

TacTiles®

No Glue Installation. Our revolutionary TacTiles installation system eliminates the need for glue, adhering carpet tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

Less Waste

Save Money. Interface Hospitality's modular flooring averages just 3.9% installation waste compared to as much as 18% or more with patterned roll carpet. Use our non directional styles with an average of 1.5% waste and save even more. That means more of your flooring investment stays on the floor—not in a dumpster.

Carbon Neutral Floors™

Create a Climate Fit for Life. All Interface flooring sold globally is third party verified carbon neutral. We've taken a holistic approach to achieve carbon neutrality, first through reducing the carbon footprint of our products and then using carbon offsets for the remainder, including the emissions from raw materials, our manufacturing processes and product use to end of life.

CushionBac Renew™

Get Comfortable. Enjoy greater comfort underfoot and improved acoustics with our high performance CushionBac Renew backing. The 21 oz. felt cushion provides less resistance to footfalls and increased sound absorption to create a more comfortable environment overall. As one of our low carbon options, CushionBac Renew also offers a total product recycled content of up to 76% (up to 25% post-consumer content), and can be recycled into our GlasBac®RE backing.

Carbon Neutral Floors
All Interface flooring sold globally is third party verified carbon neutral by Bureau Veritas.

Sustainable Assessment for Carpet
The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

CRI Green Label Plus
An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

Environmental Product Declaration (EPD)
A statement of product ingredients and environmental impacts over the entire lifecycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and the LCA must be third party verified.

A FLOR PRODUCT: Yabara
SIZE: 50cm x 50cm
COLOR: Dune
INSTALLATION: Non Directional
