

Specification Sheet

Type: Legacy

Table tops: Standard table tops are constructed with 1-1/8" M3 Industrial Grade 47# density particle board. They are constructed with HPL (high pressure laminate) on the top side and a balanced backer on the bottom side for the greatest resistance to deflection. See the edge treatment guide for more information on table edging.

Base Construction:

Rigid bolted

Tubing:

Column - 3" dia. Heavy gauge steel

Base:

Cast iron

Tie Rod:

1/2"-13 threaded rod
